

Metaphors with Dixit Cards

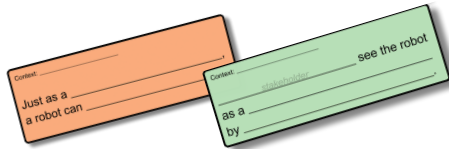

Step 1: Roll the Context Dice and select a context

One participant rolls two Context Dice for the round. Everyone will take turns rolling the dice in different rounds. Each participant selects one context from the two shown on the dice.

Step 2: Pick a Dixit Card and a Prompt

Pick a Dixit card and a prompt that inspires you based on the context you selected. Each participant should use a different Dixit card during the same round.

Step 3: Create a metaphor

Write the chosen context on the prompt and generate a metaphor. You can create more metaphors with another context on the dice, a new Dixit card or using different prompts, if time allows.

Step 4: Share & Discuss

Share your metaphors with the group. After sharing, return your Dixit cards so others can use it in future rounds.

Step 5: Rotate & Repeat

The next participant rolls the dice, and the group repeats the steps above.
